FEATURES

Real-Time Asset Visibility: Instant visibility to the location and status of all your mobile assets.

Geo Location: Locate your assets with GPS tracking, Cellular, Wi-Fi, LoRa

Asset Protection and Recovery: Effective theft prevention of your assets and easy recovery of lost equipment.

Optimize Routes and Deliveries: Increase fleet efficiency by optimizing routes and reducing delivery time

Track Indoor and Outdoor Assets: Fleet monitoring system for all indoor and outdoor trackers anywhere in the world.

Optimize Maintenance: Optimize asset performance, avoid breakdowns and protect asset health.

Robust and Field Proven: We've been a leader in asset tracking solutions for over 20 years.

Market Ready in Only 1 Day: FleetVista asset tracking solutions can be delivered in only 1 day.

Single-pane-of-glass Dashboard: Add sensors from other assets and live video in a single dashboard.

Easy to Customize: Create personalized dashboards without programmers or web developers.

User-friendly Interface: FleetVista is very easy and intuitive to use with a common interface on phone, tablet, laptop and PC.

Automatic Alerts: Receive immediate text and email alerts when your equipment need attention.

Built-in Map Views: Visuals all your assets on maps at a glance.

Easy to Scale and Deploy: Scale to track thousands of assets.

Custom Reports: See the status and history of your assets. Add custom reports for your business.

Data Security: Cellular private networks, roles-based user security, and state-of-the-art secure hosting ensure your data is secure.

Hardware and Communication Independent: Support for Ethernet, Wi-Fi, LoRa, Cellular, LPWAN and Satellite connections to the Internet.

Easy API Integration: Integrate FleetVista data with back-office and analytics applications.

Private Label Branding Available: Our asset tracking software can be branded for your company.

A complete real-time asset tracking solution for you and your customers!
